PRODUCT DESCRIPTION

The EarthTronics LED architectural grade downlight fixture provides the flexibility to insure the correct light level and color temperature desired in different applications. Select from 2700K, 3000K, 3500K, 4000K or 5000K color temperatures as well as 1000, 1500 or 2400 lumen levels with a switch located on the driver housing. The fixture features a matte-white finish, frosted lens and a deep parabolic design which provides an ample cut-off angle. This 8″ fixture can be used in new construction or in retrofit/renovation applications. The durable corrosion resistant stainless-steel spring clips accommodate up to 2″ thick ceilings. The driver operates on 120-277VAC and is complete with 0 – 10 volt dimming. The die-cast driver housing and high quality LED chips provide 50,000 hour rated life at L80. Five year warranty. Meets strict California JA8 standards and is Title 24 compliant. IC Rated for use in insulated ceiling applications and meets IECC air leakage requirements. Maybe be installed in wet locations such as soffit and covered walkway installations, out of direct weather.
